Otherwise do not add any text files..

IMPORTANT Guide Points:

1. **DON'T zip** the project.
2. Upload **BEFORE the deadline with multiple hours** to avoid any internet problems that prevent you from uploading your project successfully as NO versions after the deadline will be accepted.
3. Make sure the project is **compiling before uploading** it.
4. Make sure you **uploaded ALL** files and folders.
5. To make **sure everything is working**, let another TEAM MEMBER download the project, import, run it and finally try some testcases to be sure that all is going well insha'Allah 😊.
